INFORMATION CONCERNING THE MEDICAL EXAMINATION

The Immigration and Nationality Act requires that all immigrant visa applicants and certain nonimmigrant visa applicants, regardless of age, undergo a medical examination before receiving a visa. All applicants must undergo a medical examination administered by one of the following designated doctors before the visa interview. As examinations expire after a period of time, applicants are recommended to schedule their medical examinations no more than 4 weeks prior to the date of the visa interview. Reports generally take approximately one week to prepare. Please bring the unopened results to your visa interview. Please do **NOT** open your results.

All medical fees related to the examination are to be paid at the doctor's office. Children under 15 normally are not required to undergo an X-ray. WHAT TO EXPECT AT THE MEDICAL EXAMINATION

The medical examination is conducted by one of the appointed panel physicians. It consists of a physical examination (eyes, ears, nose, throat, extremities, heart, lungs, abdomen, lymph nodes, skin and external genitalia), chest X-ray and a blood test, which includes testing for HIV infection and venereal disease. Children between aged 2 and 14 are subject to tuberculin skin test. The blood test and X-ray are generally not required of persons under the age of 15, but they are required, under existing United States law, of all other persons. A blood test for the antibody to the human immunodeficiency virus (HIV) is required as part of your medical examination. HIV is the virus that causes the acquired immune deficiency syndrome (AIDS.) Infection with HIV causes a defect in a person's natural immunity against disease. The test is not to diagnose AIDS but to detect antibodies to the virus. Also, it may be necessary to report results to the local health authorities.

VACCINATION REQUIREMENTS FOR IV APPLICANTS

IMPORTANT NOTICE TO IMMIGRANT VISA APPLICANTS CONCERNING VACCINATION REQUIREMENTS

United States immigration law requires immigrant visa applicants to obtain certain vaccinations (listed below) prior to the issuance of a visa. Panel physicians who conduct medical examinations of visa applicants are now required to verify that immigrant visa applicants have met the new vaccination requirements, or that it is medically inappropriate for the visa applicant to receive one or more of the following vaccinations: **Acellular pertussis, Haemophilus Influenza type b (Hib), Hepatitis A, Hepatitis B, Human papillomavirus (HPV), Influenza, , Measles and Mumps and Rubella, Meningococcal, Pneumococcal, Polio, Rotavirus, Tetanus and diphtheria toxoids, Varicella, and Zoster**

To assist the panel physician and to avoid delays in the processing of your visa, **all immigrant visa applicants** should have their vaccination records available for the panel physician's review at the time of the medical examination. Visa applicants should consult with their regular health care provider to obtain a copy of their immunization record, if one is available. If you do not have a vaccination record, the panel physician will work with you to determine which vaccinations you may need to meet the requirement.

Only a physician can determine which of the listed vaccinations are medically appropriate for you, given your age, medical history and current medical condition. For more detailed information, please visit the [Centers for Disease Control and Prevention, Panel Physician Technical Instructions for Vaccination](#).

移民及國籍法案要求所有移民簽證申請人和某些非移民簽證申請人，不分年齡，在獲取簽證前要進行體格檢查。所有申請人在簽證面談前一定要由以下其中一位認可醫生進行體格檢查。因為檢查在一段時間後會過期，建議申請人在不多過簽證面談日四星期前安排體格檢查。報告大概在一星期發出。請把未開封的報告帶來面談。請勿打開你的報告。

在體格檢查時該預料的事情

體格檢查是由其中一位指定醫生進行，包括身體檢查 (眼、耳、鼻、咽喉、手和腳、心臟、肺、腹、淋巴結、皮膚和外生殖器)，胸部 X 光透視和驗血，驗血包括檢查人類免疫缺陷病毒感染 (HIV) 及性病。二至十四歲孩童要有結核菌素皮膚測試。根據現行美國法例，除年齡十五歲以下，所有人士都需要驗血和 X 光透視。檢驗對人類免疫缺陷病毒 (HIV) 的血液抗體是體格檢查一部份。HIV 的病毒是促成後天免疫力缺乏症 (AIDS，愛滋病)。感染 HIV 會造成人們對疾病的自然免疫力失去功能。檢查並非要診斷出 AIDS，而是為了查出病毒的抗體，同時，可能需要向當地衛生機關提交結果。

移民簽證申請人的接種疫苗要求

移民簽證申請人有關疫苗接種要求的重要通知

美國移民法規定，申請移民簽證者必須接種某些疫苗(列表如下)，始能獲發移民簽證。指定醫生為移民簽證申請人做體格檢查時，需證明該申請人已符合此一疫苗接種的新規定，或者證明此人在醫學上不宜接種下列某一項或多項疫苗：**Acellular**百日咳，**B型流行性嗜血桿菌疫苗(Hib)**，**A型肝炎**，**B型肝炎**，**人類乳頭瘤病毒疫苗 (HPV)**，**流行性感冒**，**麻疹、腮腺炎、德國麻疹劑**，**細菌性腦膜炎**，**肺炎球菌**，**小兒麻痺**，**輪狀病毒**，**破傷風與白喉類毒素**，**水痘**，**帶狀病毒**。

為協助指定醫生及避免拖延申請過程，**所有移民簽證申請人**在接受體格檢查時，必須備妥接種記錄給指定醫生過目。申請人應向其慣常的健康醫護人員索取一份免疫接種記錄。如果沒有接種記錄，指定醫生會協助你決定需要接種何種疫苗以符合規定。

只有醫生可按年紀，病歷及目前的健康情況，決定你適合接種那項上列的疫苗。
